**HERITAGE PARK PROJECT –
PERPETUAL CARE FUND TRUST**

FINANCIAL STATEMENTS
December 31, 2022 and 2021

and

Report of Independent Auditors

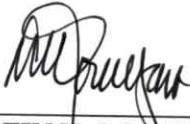

**STATEMENT OF MANAGEMENT'S RESPONSIBILITY
FOR FINANCIAL STATEMENTS**

The management of **HERITAGE PARK PROJECT – PERPETUAL CARE FUND TRUST** is responsible for the preparation and fair presentation of the financial statements for the years ended December 31, 2022 and 2021 including the additional components attached therein in accordance with the Philippine Financial Reporting Standards. This responsibility includes designing and implementing internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error, selecting and applying appropriate accounting policies, and making accounting estimates that are reasonable in the circumstances.

The **Management** is responsible for overseeing the Trust Fund's financial reporting process.

The **Management** reviews and approves the financial statements and submits the same to the members of the Organization.

PEREZ, SESE, VILLA & CO., the independent auditor appointed by the Management for the years ended December 31, 2022 and 2021, has examined the financial statements of the Trust Fund in accordance the Philippine Standards on Auditing, and in its report to the Management, has expressed its opinion on the fairness of presentation upon completion of such examination.

INDEPENDENT AUDITORS' REPORT

To the Management
HERITAGE PARK PROJECT –
PERPETUAL CARE FUND TRUST
Corporate Bldg., Bayani Road,
Fort Bonifacio, Taguig City

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of **HERITAGE PARK PROJECT – PERPETUAL CARE FUND TRUST** (the Trust Fund), which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, statements of changes in equity and statements of cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Trust Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with Philippine Financial Reporting Standards (PFRS).

Basis for Opinion

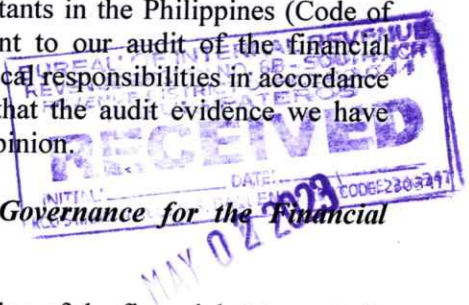

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Trust Fund in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with PFRS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Trust Fund's ability to continue as going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Trust or cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Trust's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting, and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Trust Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Trust Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information for the year ended December 31, 2022 required by the Bureau of Internal Revenue as disclosed in Note 24 to the financial statements is presented for purposes of additional analysis and is not a required part of the basic financial statements prepared in accordance with PFRS. Such supplementary information is the responsibility of management. The supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

HERITAGE PARK PROJECT-PERPETUAL CARE FUND TRUST

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2022 AND 2021

NOTE 1 - GENERAL INFORMATION

Heritage Park Project – Perpetual Care Fund Trust is an irrevocable trust fund established on November 3, 1994 by virtue of the Perpetual Care Fund Trust Agreement (the PCFTA) entered into by and between the Bases Conversion Development Authority (the Trustor) and the Philippine National Bank (the Trustee). The PCFTA was entered into pursuant to the provisions of the Pool Formation Trust Agreement (PFTA) between the Bases Conversion Development Authority (BCDA) as the project owner, Public Estate Authority (PEA) as the project manager, and Philippine National Bank (PNB) as the trustee. The Pool Formation Trust Agreement defines the Perpetual Care Fund as “*a special fund to be established exclusively for the long term maintenance of the Heritage Park, its facilities and amenities.*”

On May 5, 2021, the Perpetual Care Fund Trust Agreement was terminated, and its trustee bank was transferred from Philippine National Bank to Land Bank of the Philippines.

As owner and developer of the Heritage Park Project located in Fort Bonifacio, Taguig, Metro Manila, BCDA issued and sold to the public Heritage Park Investment Certificates (the Certificates) evidencing the right of the holder to the perpetual use of the burial lots specified therein and to the ownership of the improvements and the enjoyment of the common amenities, facilities and services and to the perpetual care and maintenance of the Heritage Park. Funds in the amount of ₱300,525,000 from the proceeds of the underwritten portion of the first tranche offering of the Certificates and an additional amount of ₱56,382,852 from the proceeds of the reserved Certificates under the first tranche offering was set aside for the perpetual care and maintenance of the Heritage Park. These funds initially constituted the Perpetual Care Fund Trust. As provided in the PCFTA, at any time after the initial contribution to the PCF Trust, and as and when BCDA issues and sells the reserved Certificates under the first tranche offering or the second tranche offering of the Certificates or any new inventories or memorial products, additional funds equivalent to 12% of the gross selling prices of the Certificates or new products shall be delivered to the Trustee (PNB) which shall form part of the Perpetual Care Fund.

Approval of the Financial Statements

The financial statements of the Trust Fund for the year ended December 31, 2022 were authorized for issue by the Management on April 28, 2023.

NOTE 2 - BASIS OF PRESENTATION

Statement of Compliance

The financial statements have been prepared in compliance with the *Philippine Financial Reporting Standard (PFRS)* issued by the Philippine Financial Reporting Standards Council. They are presented in Philippine Peso which is the Trust Fund’s functional and presentation currency. All amounts are rounded to the nearest peso.

Basis of Measurement

The financial statements have been prepared on historical cost basis, unless stated otherwise.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Trust Fund takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

For financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety; which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Trust Fund can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability

NOTE 3 - ADOPTION OF NEW AND REVISED ACCOUNTING STANDARDS

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of the following new and amended PFRS which the Trust Fund adopted effective for annual periods beginning on or after January 1, 2022.

Unless otherwise indicated, the adoption of the new and amended PFRS did not have any material effect on the financial statements. Additional disclosures have been included in the notes to financial statements, as applicable.

- Amendment to PFRS 16, *Leases - COVID-19-Related Rent Concessions beyond June 30, 2021* – In 2020, PFRS 16 was amended to provide practical expedient to lessees from applying the requirements on lease modifications for eligible rent concessions resulting from COVID-19 pandemic. A lessee may elect not to assess whether eligible rent concessions from a lessor is a lease modification. A lessee that makes this election account for any change in lease payments resulting from the COVID-19 related rent concession the same way it would account for a change that is not a lease modification, e.g., as a variable lease payment. This amendment is effective for annual reporting periods beginning on or after June 1, 2020, with earlier application permitted, and covers eligible rent concessions until June 30, 2021.

Due to the continuing impact of the pandemic, another amendment to PFRS 16 was issued in 2021, which allowed lessees to extend the application of the practical expedient regarding COVID-19-related rent concessions to reduction in lease payments that are due on or before June 30, 2022.

- Amendments to PFRS 3, *Business Combinations - Reference to Conceptual Framework* – The amendments replaced the reference of PFRS 3 from the 1989 Framework to the current 2018 Conceptual Framework. The amendments include an exception that specifies that, for some types of liabilities and contingent liabilities, a Trust Fund applying PFRS 3 should refer to PAS 37, *Provisions, Contingent Liabilities and Contingent Assets*, or IFRIC 21, *Levies*, instead of the Conceptual Framework. The requirement ensures that the liabilities recognized in a business combination will remain the same as those recognized

applying the current requirements in PFRS 3. The amendments also clarify that an acquirer shall not recognize contingent assets acquired in a business combination.

- Amendments to PAS 16, *Property, Plant and Equipment - Proceeds Before Intended Use* – The amendments prohibit deducting from the cost of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for its intended use. Instead, the proceeds and related costs from such items shall be recognized in profit or loss. There is no transition relief for first-time adopters.
- Amendments to PAS 37, *Onerous Contracts - Cost of Fulfilling a Contract* – The amendments specify which costs shall be included when assessing whether a contract is onerous or loss-making. The ‘costs of fulfilling’ a contract comprise the ‘costs that relate directly to the contract’. These costs can either be incremental (e.g., the costs of direct labor and materials) or can be an allocation of costs directly related to fulfilling a contract (e.g., depreciation of fixed assets). At the date of initial application, the cumulative effect of applying the amendments is recognized as an opening balance adjustment to retained earnings or other component of equity, as applicable. Accordingly, the comparatives are not restated.
- Annual Improvements to PFRS 2018 to 2020 Cycle:
 - Amendment to PFRS 1, *First-time Adoption of Philippine Financial Reporting Standards - Subsidiary as a First-time Adopter* – The amendment permits a subsidiary that becomes a first-time adopter later than its parent and measures its assets and liabilities in accordance with paragraph D16 (a) of PFRS 1 to measure cumulative translation differences for all foreign operations using the amounts reported by its parent, based on the parent’s date of transition to PFRS.
 - Amendment to PFRS 9, *Financial Instruments - Fees in the ‘10 per cent’ Test for Derecognition of Financial Liabilities* – The amendment clarifies which fees an entity shall include when it applies the ‘10 per cent’ test in assessing whether to derecognize a financial liability (i.e. whether the terms of a new or modified financial liability is substantially different from the terms of the original financial liability). These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or the lender on the other’s behalf. The amendment applies to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applied the amendment.
 - Amendment to PFRS 16, *Leases - Lease Incentives* – The amendment removed from Illustrative Example 13 the illustration of the reimbursement of leasehold improvements by the lessor. The objective of the amendment is to avoid any potential confusion regarding the treatment of lease incentives because of how the requirements for lease incentives are illustrated.
 - Amendment to PAS 41, *Agriculture - Taxation in Fair Value Measurements* – The amendment removed the requirement for entities to exclude cash flows for taxation when measuring the fair value of a biological asset using a present value technique to ensure consistency with the requirements in PFRS 13, *Fair Value Measurement*.

New and Amended PFRS and PIC Issuances in Issue But Not Yet Effective or Adopted

Relevant new and amended PFRS and PIC issuances, which are not yet effective as at December 31, 2022 and have not been applied in preparing the financial statements, are summarized below.

Effective for annual periods beginning on or after January 1, 2023:

- Amendments to PAS 1, *Presentation of Financial Statements*, and PFRS Practice Statement 2, *Making Materiality Judgments - Disclosure Initiative - Accounting Policies* – The amendments require an entity to disclose its material accounting policies, instead of its significant accounting policies and provide guidance on how an entity applies the concept of materiality in making decisions about accounting policy disclosures. In assessing the materiality of accounting policy information, entities need to consider both the size of the transactions, other events or conditions and its nature. The amendments clarify (1) that accounting policy information may be material because of its nature, even if the related amounts are immaterial, (2) that accounting policy information is material if users of an entity’s financial statements would need it to understand other material information in the financial statements, and (3) if an entity discloses immaterial accounting policy information, such information should not obscure material accounting policy information. In addition, PFRS Practice Statement 2 is amended by adding guidance and examples to explain and demonstrate the application of the ‘four-step materiality process’ to accounting policy information. The amendments should be applied prospectively. Earlier application is permitted.
- Amendments to PAS 8, *Accounting Policies, Changes in Accounting Estimates and Errors - Definition of Accounting Estimates* – The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies, and the correction of errors. Under the new definition, accounting estimates are “monetary amounts in financial statements that are subject to measurement uncertainty”. An entity develops an accounting estimate if an accounting policy requires an item in the financial statements to be measured in a way that involves measurement uncertainty. The amendments clarify that a change in accounting estimate that results from new information or new developments is not a correction of an error, and that the effects of a change in an input or a measurement technique used to develop an accounting estimate are changes in accounting estimates if they do not result from the correction of prior period errors. A change in an accounting estimate may affect only the profit or loss in the current period, or the profit or loss of both the current and future periods. Earlier application is permitted.
- Amendments to PAS 12, *Income Taxes - Deferred Tax Related Assets and Liabilities from a Single Transaction* – The amendments require companies to recognize deferred tax on transactions that, on initial recognition, give rise to equal amounts of taxable and deductible temporary differences. The amendments should be applied on a modified retrospective basis. Earlier application is permitted.

Effective for annual periods beginning on or after January 1, 2024:

- Amendments to PFRS 16, *Leases - Lease Liability in a Sale and Leaseback* – The amendments clarify that the liability that arises from a sale and leaseback transaction, that satisfies the requirements in PFRS 15, *Revenue from Contracts with Customers*, to be accounted for as a sale, is a lease liability to which PFRS 16 applies and give rise to a right-of-use asset. For the subsequent measurement, the seller-lessee shall determine ‘lease payments’ or ‘revised lease payments’ in a way that the seller-lessee would not

recognize any amount of the gain or loss that relates to the right of use retained by the seller-lessee. Applying this subsequent measurement does not prevent the seller-lessee from recognizing any gain or loss relating to the partial or full termination of a lease. Any gain or loss relating to the partial or full termination of the lease does not relate to the right of use retained but to the right of use terminated. The amendments must be applied retrospectively. Earlier application is permitted.

- Amendments to PAS 1, *Presentation of Financial Statements - Classification of Liabilities as Current or Noncurrent* – The amendments clarify the requirements for an entity to have the right to defer settlement of the liability for at least 12 months after the reporting period. The amendments also specify and clarify the following: (i) an entity’s right to defer settlement must exist at the end of the reporting period, (ii) the classification is unaffected by management’s intentions or expectations about whether the entity will exercise its right to defer settlement, (iii) how lending conditions affect classification, and (iv) requirements for classifying liabilities where an entity will or may settle by issuing its own equity instruments. The amendments must be applied retrospectively. Earlier application is permitted. If applied in earlier period, the Trust Fund shall also apply Amendments to PAS 1 - *Noncurrent Liabilities with Covenants* for that period.
- Amendments to PAS 1, *Noncurrent Liabilities with Covenants* – The amendments clarified that covenants to be complied with after the reporting date do not affect the classification of debt as current or noncurrent at the reporting date. Instead, the amendments require the entity to disclose information about these covenants in the notes to the financial statements. The amendments must be applied retrospectively. Earlier application is permitted. If applied in earlier period, the Trust Fund shall also apply Amendments to PAS 1 - *Classification of Liabilities as Current or Noncurrent* for that period.
- *IFRIC Agenda Decision Over Time Transfer of Constructed Goods (PAS 23, Borrowing Cost) for the Real Estate Industry* – In March 2019, IFRIC published an Agenda Decision on whether borrowing costs can be capitalized on real estate inventories that are under construction and for which the related revenue is/will be recognized over time under paragraph 35(c) of International Financial Reporting Standards 15 (PFRS 15). IFRIC concluded that borrowing costs cannot be capitalized for such real estate inventories as they do not meet the definition of qualifying asset under PAS 23 considering that these inventories are ready for their intended sale in their current condition.

On December 15, 2020, the SEC issued SEC MC No. 34, Series of 2020, which extends the relief on the application of the IFRIC Agenda Decision provided to the real estate industry until December 31, 2023.

The Trust Fund availed of the SEC relief with respect to accounting for borrowing costs. PIC Q&A 2018-12-D, *PFRS 15, Implementing Issues Affecting the Real Estate Industry (as amended by PIC Q&A 2020-4)* – On December 15, 2020, the SEC issued SEC MC No. 34-2020 providing relief to the real estate industry by deferring the application of “assessing if the transaction price includes a significant financing component as discussed in PIC Q&A 2018-12-D (with an addendum in PIC Q&A 2020-04)” until December 31, 2023.

- PIC Q&A 2018-12-E, *Treatment of Land in the Determination of the POC* – The PIC Q&A clarified that the cost of the land should be excluded in measuring the POC of performance obligation and should be accounted for as fulfillment cost.

On December 15, 2020, the SEC issued SEC MC No. 34-2020 providing relief to the real estate industry by deferring the application of “exclusion of land in calculation of POC as discussed in PIC Q&A 2018-12-E” until December 31, 2023.

Effective for annual periods beginning on or after January 1, 2025:

- PFRS 17, *Insurance Contracts*– This standard will replace PFRS 4, *Insurance Contracts*. It requires insurance liabilities to be measured at current fulfillment value and provides a more uniform measurement and presentation approach to achieve consistent, principle-based accounting for all insurance contracts. It also requires similar principles to be applied to reinsurance contracts held and investment contracts with discretionary participation features issued. An amendment to the standard was issued to (i) reduce costs of transition by simplifying some requirements of the standard, (ii) make financial performance easier to explain, and (iii) ease transition by deferring the effectivity of the standard from 2021 to 2023 and by providing additional relief to reduce the effort required when applying PFRS 17 for the first time.

In response to the challenges brought by the COVID-19 pandemic, the Insurance Commission issued Circular Letter 2020-062, *Amendment of Section 1 of Circular Letter No. 2018-69, Deferral of IFRS 17 Implementation*, which provides a two-year deferral on the implementation of the standard from the 2023 effectivity date. Therefore, all life and nonlife insurance companies in the Philippines shall adopt PFRS 17 for annual periods beginning on or after January 1, 2025.

- Amendment to PFRS 17, *Insurance Contracts - Initial Application of PFRS 17 and PFRS 9 - Comparative information*– The amendment adds a transition option for a “classification overlay” to address temporary accounting mismatches between financial assets and insurance contract liabilities relating to comparative information presented on the initial application of PFRS 17. If an entity elects to apply the classification overlay, it can only do so for comparative periods to which it applies PFRS 17. No amendments have been made to the transition requirements of PFRS 9.

Deferred effectivity -

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28 - *Sale or Contribution of Assets Between an Investor and its Associate or Joint Venture* – The amendments address a conflicting provision under the two standards. It clarifies that a gain or loss shall be recognized fully when the transaction involves a business, and partially if it involves assets that do not constitute a business. The effective date of the amendments, initially set for annual periods beginning on or after January 1, 2016, was deferred indefinitely in December 2015 but earlier application is still permitted.

Under prevailing circumstances, the adoption of the foregoing new and amended PFRS and PIC issuances is not expected to have any material effect on the financial statements of the Trust Fund. Additional disclosures will be included in the financial statements, as applicable.

NOTE 4 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies that have been used in the preparation of these financial statements are summarized below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Financial Instruments

Initial recognition and measurement

Financial assets and financial liabilities are recognized when the Trust Fund becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issuance of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in profit or loss.

Classification

The Trust Fund classifies its financial assets at initial recognition under the following categories: (a) financial assets at FVPL, (b) financial assets at amortized cost and (c) financial assets at fair value through other comprehensive income (FVOCI). Financial liabilities, on the other hand, are classified as either financial liabilities at FVPL or financial liabilities at amortized cost. The classification of a financial assets largely depends on the Trust Fund's business model and its contractual cash flow characteristics.

Financial Assets and Liabilities at FVPL

Financial assets and liabilities at FVPL are either classified as held for trading or designated at FVPL.

This category includes equity instruments which the Trust Fund had not irrevocably elected to classify at FVOCI at initial recognition. This category includes debt instruments whose cash flows are not "solely for payment of principal and interest" assessed at initial recognition of the assets, or which are not held within a business model whose objective is either to collect contractual cash flows, or to both collect contractual cash flows and sell.

The Trust Fund may, at initial recognition, designate a financial asset or financial liability meeting the criteria to be classified at amortized cost or at FVOCI, as a financial asset or financial liability at FVPL, if doing so eliminates or significantly reduces accounting mismatch that would arise from measuring these assets or liabilities.

After initial recognition, financial assets at FVPL and held for trading financial liabilities are subsequently measured at fair value. Unrealized gains or losses arising from the fair valuation of financial assets at FVPL and held for trading financial liabilities are recognized in profit or loss.

For financial liabilities designated at FVPL under the fair value option, the amount of change in fair value that is attributable to changes in the credit risk of that liability is recognized in other comprehensive income (rather than in profit or loss), unless this creates an accounting mismatch. Amounts presented in other comprehensive income are not subsequently transferred to profit or loss.

As at December 31, 2022 and 2021, the Trust Fund does not have financial assets or liabilities classified as FVPL.

Financial Assets at Amortized Cost

Financial assets shall be measured at amortized cost if both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial recognition, financial assets at amortized cost are subsequently measured at amortized cost using the effective interest method, less allowance for credit losses, if any. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees that are an integral part of the effective interest rate. Gains and losses are recognized in profit or loss when the financial assets are derecognized and through amortization process.

As at December 31, 2022 and 2021, the Trust Fund's cash and cash equivalents and receivables are classified under this category.

Financial Assets at FVOCI.

For debt instruments that meet the contractual cash flow characteristic and are not designated at FVPL under the fair value option, the financial assets shall be measured at FVOCI if both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and selling the financial assets; and
- the contractual terms of the financial asset give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal amount outstanding.

For equity instruments, the Trust Fund may irrevocably designate the financial asset to be measured at FVOCI as long as these are not held for trading purposes.

After initial recognition, Financial assets at FVOCI are presented in the financial statements at fair value with changes in fair value are recognized in OCI.

Interest income on debt instruments is calculated using the effective interest method while credit losses on debt instruments measured at FVOCI are recognized directly in profit or loss. When the financial asset is derecognized, the cumulative gains or losses previously recognized in OCI are reclassified to profit or loss.

Dividends from equity instruments held at FVOCI are recognized in profit or loss when the right to receive payment is established. Cumulative changes in fair value of FVOCI equity instruments are recognized in equity and are not reclassified to profit or loss in subsequent periods.

As at December 31, 2022 and 2021, the Trust Fund's financial assets classified as FVOCI are included in this category (Note 10).

Financial Liabilities at Amortized Cost

Financial liabilities are categorized as financial liabilities at amortized cost when the substance of the contractual arrangement results in the Trust Fund having an obligation either to deliver cash or another financial asset to the holder, or to settle the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of its own equity instruments.

These financial liabilities are initially recognized at fair value less any directly attributable transaction costs. After initial recognition, these financial liabilities are subsequently measured at amortized cost using the effective interest method. Amortized cost is calculated by taking into account any discount or premium on the issue and fees that are an integral part of the effective interest rate. Gains and losses are recognized in profit or loss when the liabilities are derecognized or through the amortization process.

As at December 31, 2022 and 2021, the Trust Fund's payable to general fund, accrued expense under payables and security deposits are classified under this category

Reclassification

The Trust Fund reclassifies its financial assets when, and only when, it changes its business model for managing those financial assets. The reclassification is applied prospectively from the first day of the first reporting period following the change in the business model (reclassification date).

For a financial asset reclassified out of the financial assets at amortized cost category to financial assets at FVPL, any gain or loss arising from the difference between the previous amortized cost of the financial asset and fair value is recognized in profit or loss.

For a financial asset reclassified out of the financial assets at amortized cost category to financial assets at FVOCI, any gain or loss arising from a difference between the previous amortized cost of the financial asset and fair value is recognized in OCI.

For a financial asset reclassified out of the financial assets at FVPL category to financial assets at amortized cost, its fair value at the reclassification date becomes its new gross carrying amount.

For a financial asset reclassified out of the financial assets at FVOCI category to financial assets at amortized cost, any gain or loss previously recognized in OCI shall be recognize in profit or loss.

For a financial asset reclassified out of the financial assets at FVPL category to financial assets at FVOCI, its fair value at the reclassification date becomes its new gross carrying amount. Meanwhile, for a financial asset reclassified out of the financial assets at FVOCI category to financial assets at FVPL, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment at the reclassification date.

Impairment of Financial Assets

The Trust Fund records an allowance for "expected credit loss" (ECL). ECL is based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Trust Fund expects to receive. The difference is then discounted at an approximation to the asset's original effective interest rate.

For receivables, the Trust Fund has applied the simplified approach and has calculated ECL based on the lifetime expected credit losses. The Trust Fund has established a provision matrix that is

based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For debt instruments measured at amortized cost and FVOCI, the ECL is based on the 12-month ECL, which pertains to the portion of lifetime ECLs that result from default events on a financial instrument that are possible within 12 months after the reporting date. However, when there has been a significant increase in credit risk since initial recognition, the allowance will be based on the lifetime ECL. When determining whether the credit risk of a financial asset has increased significantly since initial recognition, the Trust Fund compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and consider reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

Derecognition of Financial Assets and Liabilities

Financial Assets

A financial asset (or where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- the right to receive cash flows from the asset has expired;
- the Trust Fund retains the right to receive cash flows from the financial asset, but has assumed an obligation to pay them in full without material delay to a third party under a “pass-through” arrangement; or
- the Trust Fund has transferred its right to receive cash flows from the financial asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Trust Fund has transferred its right to receive cash flows from a financial asset or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all the risks and rewards of ownership of the financial asset nor transferred control of the financial asset, the financial asset is recognized to the extent of the Trust Fund’s continuing involvement in the financial asset. Continuing involvement that takes the form of a guarantee over the transferred financial asset is measured at the lower of the original carrying amount of the financial asset and the maximum amount of consideration that the Trust Fund could be required to repay.

Financial Liabilities

A financial liability is derecognized when the obligation under the liability is discharged, cancelled or has expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the statements of comprehensive income.

A modification is considered substantial if the present value of the cash flows under the new terms, including net fees paid or received and discounted using the original effective interest rate, is different by at least 10% from the discounted present value of remaining cash flows of the original liability.

The fair value of the modified financial liability is determined based on its expected cash flows, discounted using the interest rate at which the Trust Fund could raise debt with similar terms and conditions in the market. The difference between the carrying value of the original liability and fair value of the new liability is recognized in the statements of comprehensive income.

On the other hand, if the difference does not meet the 10% threshold, the original debt is not extinguished but merely modified. In such case, the carrying amount is adjusted by the costs or fees paid or received in the restructuring.

Offsetting of Financial Assets and Liabilities

Financial assets and financial liabilities are offset and the net amount reported in the statements of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is intention to settle on a net basis, or to realize the asset and settle the liability simultaneously. This is not generally the case with master netting agreements, and the related assets and liabilities are presented gross in the statements of financial position.

Inventories

Inventories includes pavilion niches in area 2, Taguig and Terrasauleum.

These are initially measured at cost. Costs of inventory include purchase price and all incidental cost necessary to bring the inventory to its saleable condition. Subsequently, inventories are reported in the statement of financial position at the lower of cost and net realizable value. Cost is calculated using the specific identification method.

At each reporting date, inventories are assessed for impairment by comparing the carrying amount of each item of inventory with its net realizable value. If an item of inventory is impaired, its carrying amount is reduced to net realizable value, and an impairment loss is recognized immediately in profit and loss. Any reversal of impairment is recognized also in profit or loss.

Prepayments and Other Current Assets

Prepayments represent advance payments insurance which the Trust Fund expects to consume within one year. Other current assets include creditable withholding taxes and input tax. Prepayments and other current assets are stated in the statement of financial position at cost less any portion that has already been consumed or that has already expired.

Property and Equipment

Property and equipment are tangible assets that are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes, and are expected to be used during more than one period.

Items of property and equipment are initially measured at cost. Such cost includes purchase price and all incidental costs necessary to bring the asset to its location and condition. Subsequent to initial recognition, items of property and equipment are measured in the statement of financial position at cost less any accumulated depreciation and any accumulated impairment losses. Depreciation, which is computed on a straight-line basis, is recognized so as to allocate the cost of assets less their residual values over their estimated useful lives. Land is not depreciated.

If there is an indication that there has been a significant change in useful life or residual value of an asset, the depreciation of that asset is revised prospectively to reflect the new expectations.

When assets are sold, retired or otherwise disposed of, their costs and related accumulated depreciation and impairment losses, if any, are removed from the accounts and any resulting gain or loss is reflected in profit or loss for the period.

Impairment of Non- Financial Assets

At each reporting date, non-financial assets are reviewed to determine whether there is any indication that those assets have suffered an impairment loss. If there is an indication of possible impairment, the recoverable amount of any affected asset (or group of related assets) is estimated and compared with its carrying amount. If estimated recoverable amount is lower, the carrying amount is reduced to its estimated recoverable amount, and an impairment loss is recognized immediately in profit and loss

If an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but not to exceed the amount that would have been determined had no impairment loss been recognized for the asset in prior years. A reversal of an impairment loss is recognized immediately in profit and loss.

Deficit

Deficit represents accumulated losses incurred by the Trust Fund. Deficit may also indicate effect of changes in accounting policy as may be required by the standards transitional provisions

Revenue

Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Trust Fund and the amount of revenue can be measured reliably. Revenue is measured by reference to the fair value of consideration received or receivable excluding discounts, returns and sales taxes. Revenue is recognized either at a point in time or over a period of time.

Revenue is recognized as follows:

Sale of investment certificates

Revenue is recognized when the risks and rewards of ownership of the goods have passed to the buyer, i.e., generally when the customer has acknowledged receipts of investment certificate.

Rental income

Revenue recognition for rental income is disclosed in the Trust Fund policy for leases.

Finance income

Finance income comprises interest income on bank deposits. Interest income is recognized in profit and loss as it accrues, using the effective interest method.

Expenses

Expenses are decreases in economic benefits in the form of decreases in assets or increase in liabilities that result in decreases in equity, other than those relating to distributions to equity participants. Expenses are generally recognized when the services are received or when the expenses are incurred.

Operating expense

Operating expenses includes general & administrative expenses. General & administrative expenses represent expenses such as repairs and maintenance, security services, management fees and other costs that cannot be associated directly to the services rendered.

Borrowing cost

Borrowing costs include interest and other charges related to borrowing arrangements.

Borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets are added to the cost of the assets until such time as the assets are substantially ready for their intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale,

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are recognized in profit or loss in the period in which they are incurred.

Income Tax

Income tax expense includes current tax expense and deferred tax expense. The current tax expense is based on taxable profit for the year. Deferred tax is recognized on the differences between the carrying amounts of assets and liabilities in the financial statements and their corresponding tax bases.

Deferred tax liabilities are recognized for all temporary differences that are expected to increase taxable profit in the future. Deferred tax assets are recognized for all temporary differences that are expected to reduce taxable profit in the future, and any net operating loss carry over (NOLCO) or excess of minimum corporate income tax (MCIT) over the regular corporate income tax (RCIT). The net carrying amount of deferred tax asset is reviewed at each reporting date and any adjustments are recognized in profit or loss.

Deferred tax is calculated at the tax rates that are expected to apply to the taxable profit on the basis of tax rates that have been enacted or substantively enacted by the end of the reporting period.

Related Parties

Related party relationship exists when one party has the ability to control, directly, or indirectly through one or more intermediaries, the other party or exercises significant influence over the other party in making financial and operating decisions. Such relationships also exist between and/or among entities which are under common control with the reporting enterprise, or between, and/or among the reporting enterprise and its key management personnel, directors, or its major shareholders. In considering each possible related party relationship, attention is directed to the substance of the relationship, and not merely the legal form.

Leases

A lease is a contract that conveys the right to use an identified asset for a period of time in exchange for a consideration.

Determination as to whether a contract is, or contains, a lease is made at the inception of the lease. Accordingly, the Trust Fund assesses whether the contract meets three key evaluations which are:

- the contract contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the lessee;
- the lessee has the right to obtain substantially all of the economic benefits from use of the identified asset throughout the period of use, considering its rights within the defined scope of the contract; and,
- the lessee has the right to direct the use of the identified asset throughout the period of use. The lessee assesses whether it has the right to direct 'how and for what purpose' the asset is used throughout the period of use.

Trust Fund as Lessor

Leases wherein the Trust Fund substantially transfers to the lessee all risks and benefits incidental to ownership of the leased items are classified as finance leases and are presented as receivable at an amount equal to the Trust Fund's net investment in the lease. Finance income is recognized based on the pattern reflecting a constant periodic rate of return on the Trust Fund's net investment outstanding in respect of the finance lease.

Leases which do not transfer to the lessee substantially all the risks and benefits of ownership of the asset are classified as operating leases. Lease income from operating leases is recognized as income in the statement of comprehensive income on a straight-line basis over the lease term.

Foreign Currency Transaction

Foreign currency transactions are initially recognized using the spot rate of exchange at the date of the transaction. Monetary assets and liabilities that are denominated in foreign currency are translated into the functional currency using the closing rate as of the reporting date. Gains and losses arising from foreign currency transactions and remeasurement of monetary assets and liabilities are recognized immediately in profit and loss.

Provisions and contingencies

Provisions are recognized only when the Trust Fund has a present obligation as a result of past event and it is probable that the Trust Fund will be required to transfer economic benefits in settlement; and the amount of provision can be estimated reliably.

Contingent assets and liabilities are not recognized in the financial statements.

Changes in accounting policies, change in accounting estimates and correction of prior years errors

The Trust Fund applies changes in accounting policy if the change is required by the accounting standards or in order to provide reliable and more relevant information about the effects of transactions, other events or conditions on the Trust Fund's financial statements. Changes in accounting policy brought about by new accounting standards are accounted for in accordance with the specific transitional provision of the standards. All other changes in accounting policy are accounted for retrospectively.

Changes in accounting estimates is recognized prospectively by reflecting it in the profit and loss in the period of the change if the change affects that period only or the period of the change and future periods if the change affects both.

Prior period errors are omissions from, and misstatements in, the Trust Fund's financial statements for one or more prior periods arising from a failure to use, or misuse of, reliable information that was available when financial statements for those periods were authorized for issue and could reasonably be expected to have been obtained and taken into account in the preparation and presentation of those financial statements.

To the extent practicable, the Trust Fund corrects a material prior period error retrospectively in the first financial statements authorized for issue after its discovery by restating the comparative amounts for the prior period(s) presented in which the error occurred, or if the error occurred before the earliest prior period presented, restating the opening balances of assets, liabilities and equity for period presented.

When it is impracticable to determine the period-specific effects of an error on comparative information for one or more prior periods presented, the Trust Fund restates the opening balances of assets, liabilities and equity for the earliest period for which retrospective restatement is practicable.

Subsequent events

Subsequent events that provide additional information about conditions existing at period end (adjusting events) are recognized in the financial statements. Subsequent events that provide additional information about conditions existing after period end (non-adjusting events) are disclosed in the notes to the financial statements.

NOTE 5 - SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The preparation of the financial statements in accordance with *Philippine Financial Reporting Standards* requires the Trust Fund to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Future events may occur which will cause the assumption used in arriving at the estimates to change. The effects of changes in estimates will be reflected in the financial statements as they become reasonably determinable.

Judgments

In the process of applying the Trust Fund's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effect on the amounts recognized in the financial statements:

Assessment of Impairment of Non-financial Assets

The Trust Fund determines whether there are indicators of impairment of the Trust Fund's non-financial assets such as property and equipment, and prepayments and other current assets. Indicators of impairment include significant change in usage, decline in the asset's fair value on underperformance relative to expected historical or projected future results. Determining the fair value requires the determination of future cash flows and future economic benefits expected to be generated from the continued use and ultimate disposition of such assets. It requires the Trust Fund to make estimates and assumptions that can materially affect the financial statements. Future events could be used by management to conclude that these assets are impaired. Any resulting impairment loss could have a material adverse impact on the Trust Fund's financial position and financial performance. The preparation of the estimated future cash flows and economic benefits involves significant judgments and estimation.

No impairment loss is recognized in the Trust Fund's financial statements in 2022 and 2021.

Estimates

The following are the key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Estimation of Allowance for ECL

The measurement of the allowance for ECL on financial assets at amortized cost is an area that requires the use of significant assumptions about the future economic conditions and credit behavior (e.g., likelihood of customers defaulting and the resulting losses). Explanation of the inputs, assumptions and estimation used in measuring ECL is further detailed in Note 22.

Determination of Net Realizable Value of Inventories

At reporting date, the Trust Fund assesses the inventories for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The factors that the Trust Fund considers important which could trigger an impairment review include significant decline in inventories' market value, obsolescence and physical damage of inventories. If such indications are present and where the cost of inventories exceeds its estimated selling price less costs to sell, an impairment loss is recognized in profit or loss.

No provisions for impairment of inventories were recognized in year 2022 and 2021.

Estimating useful lives of property and equipment

The Trust Fund estimates the useful lives of its property and equipment based on the period over which these assets are expected to be available for use. The estimated useful lives of these assets and residual values are reviewed, and adjusted if appropriate, only if there is a significant change in the asset or how it is used.

The following estimated useful lives are used in depreciating the property and equipment:

<u>Particulars</u>	<u>Useful Lives</u>
Building	20 years
Building improvement	10-20 years
Office equipment	5 years

NOTE 6 - CASH AND CASH EQUIVALENTS

This account consists of:

	<u>2022</u>	<u>2021</u>
Cash in bank	P 7,298,117	P 10,631,325
Cash equivalents	87,839,442	163,280,686
Cash on hand	25,000	-
	<u>P 95,162,559</u>	<u>P 173,912,011</u>

Cash in banks earn interest at the respective bank deposit rates. Cash equivalents are short-term placements which are made for varying periods of between one month and three months depending on the immediate cash requirements of the Trust Fund, and earn interest ranging from 0.125% to 1.63% per annum. Interest earned from these financial assets amounted to P1,479,825 and P492,893 in 2022 and 2021, respectively (Note 16).

NOTE 7 - RECEIVABLES

This account consists of:

	<u>2022</u>	<u>2021</u>
Receivable from general fund	₱ 25,514,224	₱ 25,514,224
Rental fee receivables	12,549,215	4,374,455
Utilities	6,010,431	3,604,990
Accrued interest receivables	3,687,065	2,329,550
Receivable from sale of HPICs	862,678	473,122
Interment share receivables	403,200	436,800
Transfer fees	329,500	22,875
	<u>₱ 49,356,313</u>	<u>₱ 36,756,016</u>

Receivable from the general fund is associated with the construction of the Pavilion and Area 2 advanced by PCF.

Part of the rental fee receivables pertain to unpaid rental from Pilipinas Shell for the lease of a parcel of land located along C-5 Road, Southbound, Fort Bonifacio, Taguig City amounting to P12,519,886 and P3,526,855 as of December 31, 2022 and 2021, respectively.

Utilities pertains to the share of RMMI and The Fort Park Estate Inc. for the use of water and electricity.

Accrued interest receivables are interest earned but not yet received from interest-bearing financial assets held by the Trust Fund but not yet received.

Interment share receivables pertain to the receivable from RMMI for every interment made which amounts to ₱10,000 per interment.

All of the Trust Fund's receivables have been reviewed for indicators of impairment. Management believes that none of the receivables is impaired.

NOTE 8 - INVENTORY

This account consists of:

	<u>2022</u>	<u>2021</u>
Pavilion niches	₱ 95,541,841	₱ 97,931,417
Area 2	25,049,166	25,049,166
Taguig area	61,714,286	61,714,286
Terrasauleum	60,260,930	60,260,930
	<u>₱ 242,566,223</u>	<u>₱ 244,955,799</u>

Details per plan/lot/service is as follows.

	<u>2022</u>	<u>2021</u>
Niches	₱ 95,895,520	₱ 98,285,096
Estate	117,205,944	117,205,944
Garden	19,846,203	19,846,203
Lawn	2,253,857	2,253,857
Cremation Plot	7,364,699	7,364,699
	<u>₱ 242,566,223</u>	<u>₱ 244,955,799</u>

Number of investment certificates are as follows:

	<u>2022</u>	<u>2021</u>
Pavilion niches	₱ 8,901	₱ 9,277
Area 2	554	554
Taguig area	36	36
Terrasauleum	114	114
	<u>₱ 9,605</u>	<u>₱ 9,981</u>

Heritage Park Investment Certificates evidence the right of the holder to the perpetual use of the burial lots/niches specified in the certificates and the ownership of the improvement and the enjoyment of the common amenities, facilities and services and to the perpetual care and maintenance of Heritage Park.

NOTE 9 - PREPAYMENTS AND OTHER CURRENT ASSETS

This account consists of:

	<u>2022</u>	<u>2021</u>
Input VAT	₱ 33,996,472	₱ 32,704,564
Prepaid income tax	21,099,737	20,376,520
	<u>₱ 55,096,209</u>	<u>₱ 53,081,084</u>

Input VAT pertains to accumulated taxes on purchases of goods and services.

Prepaid income tax pertains to creditable taxes withheld from income payments. This amount can be claimed as charges to Trust Fund's future income tax liability.

Movement of prepaid income tax is as follows:

	<u>2022</u>	<u>2021</u>
Beginning balance	₱ 20,291,547	₱ 19,498,399
Addition	808,190	793,148
Ending balance	<u>₱ 21,099,737</u>	<u>₱ 20,291,547</u>

NOTE 10 - FINANCIAL ASSET THROUGH FVOCI

This account consists of various investments which are stated at fair value as follows:

	<u>2022</u>	<u>2021</u>
Fixed rate treasury notes (FXTNs)	₱ 90,670,625	₱ 80,709,904
Republic of the Philippines (ROP) Dollar bonds	133,903,101	66,324,764
	<u>₱ 224,573,726</u>	<u>₱ 147,034,668</u>

FXTNs are subject to 18.25% interest rate which will mature on November 29, 2025.

Investment in ROP dollar bond has fair value of \$2,386,014 (@56.120) and \$1,315,471 (@50.774) as at December 31, 2022 and 2021, respectively. These are subject to 10.625% interest rate and will mature on March 16, 2025.

Interest income recognized from these investments in 2022 and 2021 amounts to ₱4,014,793 and ₱8,092,157, respectively (Note 16).

NOTE 11 - PROPERTY AND EQUIPMENT - NET

A reconciliation of the carrying amounts at the beginning and end of 2022 and 2021, of property and equipment is shown below:

2022

	Buildings	Building improvements	Office equipment	Total
Costs				
January 01, 2022	₱ 65,607,788	₱ 55,547,056	₱ 74,839	₱ 121,229,683
Additions	-	7,885,000	90,446	7,975,446
Disposals	-	-	-	-
December 31, 2022	<u>65,607,788</u>	<u>63,432,056</u>	<u>165,285</u>	<u>129,205,129</u>

January 01, 2022	65,607,788	35,923,863	55,455	101,587,106
Depreciation expense	-	1,737,332	11,269	1,748,601
Disposals	-	-	-	-
December 31, 2022	<u>65,607,788</u>	<u>37,661,195</u>	<u>66,724</u>	<u>103,335,707</u>
Carrying amount				
December 31, 2021	<u>₱ -</u>	<u>₱ 19,623,193</u>	<u>₱ 19,384</u>	<u>₱ 19,642,577</u>
Carrying amount				
December 31, 2022	<u>₱ -</u>	<u>₱ 25,770,861</u>	<u>₱ 98,561</u>	<u>₱ 25,869,422</u>

2021

	Buildings	Building improvements	Office equipment	Total
Costs				
January 01, 2021	₱ 65,607,788	₱ 55,400,449	₱ 48,000	₱ 121,056,237
Additions	-	146,607	26,839	173,446
Disposals	-	-	-	-
December 31, 2021	<u>65,607,788</u>	<u>55,547,056</u>	<u>74,839</u>	<u>121,229,683</u>
Accumulated depreciation				
January 01, 2021	64,238,469	34,258,998	48,000	98,545,467
Depreciation expense	1,369,319	1,664,865	7,455	3,041,639
Disposals	-	-	-	-
December 31, 2021	<u>65,607,788</u>	<u>35,923,863</u>	<u>55,455</u>	<u>101,587,106</u>
Carrying amount				
December 31, 2020	<u>₱ 1,369,319</u>	<u>₱ 21,141,451</u>	<u>₱ -</u>	<u>₱ 22,510,770</u>
Carrying amount				
December 31, 2021	<u>₱ -</u>	<u>₱ 19,623,193</u>	<u>₱ 19,384</u>	<u>₱ 19,642,577</u>

The carrying values of the property and equipment approximate their fair values. The Trust Fund has not entered into contractual commitment for the acquisition of property and equipment as at December 31, 2022 and 2021.

NOTE 12 - OTHER NON-CURRENT ASSET

Other non-current asset pertains to the Geographic Information System database of the Trust Fund which is under development stage. This amounts to ₱2,600,000 as of December 31, 2022 and 2021.

NOTE 13 - PAYABLES

This account consists of:

	<u>2022</u>	<u>2021</u>
Payable to general fund	P 92,409,443	P 92,409,443
Accrued expenses	8,678,778	4,399,453
Payable to contractors	6,162,800	2,231,234
Withholding tax payable	1,008,671	1,106,361
Deferred VAT output	2,043,625	754,991
	<u>P 110,303,317</u>	<u>P 100,901,482</u>

Payable to general fund pertains to funds to be remitted to the General Fund as a result of the variation agreement between HPMC and RMMI signed June 27, 2014 (Note 20).

Payable to contractor pertains on the unpaid construction of the sewage treatment plant and sequential batch reactor for the irrigation of the Heritage Park.

Details of accrued expenses are as follow:

	<u>2022</u>	<u>2021</u>
Maintenance fee	P 6,337,550	P 2,444,625
Security services	1,005,981	940,035
Utilities	909,640	640,271
Professional fee	250,626	196,000
Trustee fees	174,981	178,522
	<u>P 8,678,778</u>	<u>P 4,399,453</u>

Withholding tax payable pertains to expanded withholding tax that are due for remittance in the succeeding period.

Deferred VAT Output is the tax component of uncollected receivables.

NOTE 14 - UNEARNED REVENUES

Details of this account are as follows:

	<u>2022</u>	<u>2021</u>
Current portion of unearned revenues	P -	P 1,389,940
Non-current portion	-	-
	<u>P -</u>	<u>P 1,389,940</u>

Movement of unearned revenues follows:

	<u>2022</u>	<u>2021</u>
Beginning of the year	P 1,389,940	P 12,811,461
Additions	-	-
Amortization	(1,389,940)	(11,421,521)
Balance at the end of year	<u>P -</u>	<u>P 1,389,940</u>

This account pertains to advance rental received from Pilipinas Shell Petroleum Corporation for the lease of the Trust Fund's property located a C-5 Road South bound, Fort Bonifacio, Taguig City (Note 19).

NOTE 15 - FUNDS AND CONTRIBUTION

Details of this account are as follows:

	2022	2021
Initial amount allocated to PCF	P 300,525,000	P 300,525,000
Reserve heritage certificates	56,382,852	56,382,852
Additional contributions	472,749,484	469,731,162
	<u>P 829,657,336</u>	<u>P 826,639,014</u>

The Trust recognized additional contributions of P46,517,706 in 2015. These are proceeds from prior years transactions received during the period as a result of the settlement of accounts between RMMI and HPMC as agreed upon in the compromise agreement (Note 20). These are Perpetual Care Fund contributions of 12% in relation to the sale of PCF products, lots in Area 2, CDA and Pavilion.

NOTE 16 - REVENUES

Details of revenues are as follows:

	2022	2021
Rental	P 22,858,671	P 18,239,459
Other Income	49,913,068	46,816,089
Interest income from:		
Savings account (Note 6)	4,955	5,286
CTD/PSA/Treasury bills (Note 6)	1,474,870	487,607
FXTN/Bonds (Note 10)	4,014,793	8,092,157
	<u>P 78,266,357</u>	<u>P 73,640,598</u>

Details of other income are as follows:

	2022	2021
Sale of pavilion niches*	P 19,744,781	P 25,047,252
Share on utilities	9,866,336	7,247,432
Foreign exchange gains	14,230,509	5,307,927
Share on interment	4,770,000	4,520,000
Share on oil products	1,301,442	4,693,478
	<u>P 49,913,068</u>	<u>P 46,816,089</u>

*sale of pavilion niches is net of cost of sale amounting to P2,389,576 and P2,752,225 in 2022 and 2021, respectively.

NOTE 17 - EXPENSES

Details of expenses are as follows:

	2022	2021
Repairs and maintenance	P 18,549,509	P 13,228,945
Light and water	14,856,693	10,809,554
Security services	11,633,162	8,707,822
Management fee	8,400,000	8,400,000
Commission	4,527,482	5,003,960
Depreciation	1,748,602	3,041,639
Professional fees	1,460,867	1,117,836
Trust fee	1,231,664	933,789

Appropriated operating funds	1,027,557	4,038,973
Credit losses	1,864	-
Annual meeting expense	-	468,191
Miscellaneous	60,539	16,879
	<u>₱ 63,497,939</u>	<u>₱ 55,767,588</u>

NOTE 18 - OTHER COMPREHENSIVE INCOME

This account pertains to increases and decreases in the fair values of the investments held by the Trust Fund during a given period. As at December 31, 2022 and 2021, net unrealized gain on FVOCI investments reported under equity amounted to ₱36,298,893 and ₱44,855,229, respectively.

Breakdown of this account is as follows:

	2022	2021
Fixed rate treasury notes (FXTNs)	₱ 22,270,814	₱ 24,755,482
Republic of the Philippines (ROP) dollar bonds	14,028,079	20,099,747
	<u>₱ 36,298,893</u>	<u>₱ 44,855,229</u>

NOTE 19 - LEASE AGREEMENT

On August 13, 2014, the Trust Fund entered into lease agreement through its representative Heritage Park Management Corporation (HPMC) with Pilipinas Shell Petroleum Corporation (SHELL). The Trust Fund leased to SHELL a portion of the parcel of land located along C-5 Road Southbound, Fort Bonifacio, Taguig City, containing an area of Two Thousand Seven Hundred Twenty-Five (2,725) square meters, more or less, as site for full service gasoline station. The term of the lease agreement is Twenty (20) years commencing in February 2017. The fixed amount of rent is ₱288.50 per square meter per month and subject to escalation rate of 5% per annum starting on the second year.

The agreement provides for the payment of security deposit amounting to ₱10,094,326 in 2022 and 2021. Additional requirement of the agreement is the payment of advance rental equivalent to the fixed rent for the first (1st) year of the contract and second (2nd) to fifth (5th) year inclusive of the annual 5% escalation rate (Note 14).

Total rent income earned from this lease agreement which is presented under the statements of comprehensive income amounts to ₱12,426,952 and ₱11,421,521 in 2022 and 2021, respectively.

Future minimum lease receivables under such operating lease are as follows:

	2022	2021
Not later than one year	₱ 15,597,128	₱ 11,992,597
Later than one year but not later than five years	77,985,639	69,580,002
Later than five years	124,777,023	202,142,166
	<u>₱ 218,359,790</u>	<u>₱ 283,714,765</u>

NOTE 20 - VARIATION AGREEMENTS

On June 27, 2014, the Trust Fund through its representative Heritage Park Management Corporation (HPMC) entered into variation agreement with Rosehills Memorial Management Philippines, Inc. (RMMI).

The following are the more significant terms and conditions of the agreement:

- *Settlement of Arbitral Award.* The parties agreed to abide by, respect and settle the arbitral awards. Whereas HPMC will pay the amount of ₱186,060,253 to RMMI for management and maintenance fee and on the other hand RMMI will remitted back the amount of ₱87,086,561 to HPMC for the over remittance of operating fund “management and maintenance fund”.
- *Settlement of Fees Due Up to December 2013.* The parties further agree that the management and maintenance fee due to RMMI for the period June 2012 to December 2013 shall be ₱2,500,000.
- *Management Fee.* HPMC agrees to pay RMMI a management fee of ₱700,000 a month for the overall management and maintenance of the Park. The amount shall be subject to escalation every two years, at a rate that shall be agreed upon by both parties and subject to regular review.
- *Earning/Income of PCF.* The parties hereby agree that ₱10,000 of the payment for every interment conducted in the Park shall be remitted to and shall constitute earnings of income of the Perpetual Care Fund established for the long-term maintenance of the Park. The amount shall be subject to escalation in the same manner of the management fee.
- *Additional Park Lease Payments.* The parties agree that RMMI shall pay, for all areas or lots situated at the Park utilized by it as of the date of execution of the Agreement that are related or attributable to the park maintenance, a nominal or concessional lease payment in the amount of ₱10,000 monthly. For areas or lots situated at the Park that RMMI utilizes as of the execution of this Agreement that are solely devoted to the business enterprise of RMMI and are in no way related to the upkeep and maintenance of the Park, RMMI shall pay a standard lease payment in the amount of ₱50,000 monthly. These leases shall be paid and remitted to the Perpetual Care Fund as earnings or income of the Perpetual Care Fund.

NOTE 21 - FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

Market Risk

The Trust Fund is exposed to market risk through its use of financial instruments and specifically to foreign currency risk and interest rate risk which result from both its operating, investing and financing activities.

Foreign Currency Risk

The Trust Fund’s exposure to the risk for changes in foreign exchange rates relates primarily to the Trust Fund’s dollar denominated deposits.

The following table shows the Trust Fund US dollar- denominated monetary financial assets and their Philippine peso equivalent:

	2022		2021	
	Peso Equivalent	Amount in Foreign Currency	Peso Equivalent	Amount in Foreign Currency
Financial asset at amortized cost:				
Cash and cash equivalents	₱ 4,603,924	\$ 82,037	₱ 63,614,309	\$ 1,252,891

For purposes of restating the outstanding balances of the Trust Fund's foreign currency-denominated financial assets and liabilities as at December 31, 2022 and 2021, the exchange rate applied was ₱56.120 and ₱50.774 per US\$1, respectively.

The following table demonstrates the sensitivity to a reasonably possible change in the US dollar exchange rate, with all other variables held constant, of the Trust Fund's income before tax for the years ended December 31, 2022 and 2021 (due to changes in the fair value of financial assets and liabilities). There is no other impact on the Trust Fund's equity other than those already affecting profit or loss.

	Increase/Decrease in Exchange Rate	Effect on Income before Tax
December 31, 2022	+5.35	₱438,898
	-5.35	-438,898
December 31, 2021	+2.73	₱3,420,394
	-2.73	-3,420,394

Interest Rate Risk

The Trust Fund's exposure to the risk for changes in interest rates relates primarily to the Trust Fund's bank accounts with local financial institutions with fixed interest rate. In 2022 and 2021. The Trust Fund has no established policy in managing interest rate risk. Management believes that fluctuations on the interest rates will not have significant effect on the Trust Fund's financial performance.

Liquidity Risk

The Trust Fund's exposure to liquidity risk is minimal. The Trust Fund's objective is to maintain a balance between continuity of funding. In addition, the Trust Fund regularly evaluates its projected and actual cash flows.

The following table presents the maturity profile of the Trust Fund's financial liabilities as at December 31, 2022 and 2021 based on contractual undiscounted payments.

		December 31, 2022						
		Within 1 Year	1 to 2 Years	2 to 3 Years	3 to 5 Years	More than 5 Years	No fixed maturity date	Total
Payables*	P	14,841,578	P -	P -	P -	P -	P 92,409,443	P 107,251,021
Security deposit		-	-	-	-	10,094,326	-	10,094,326
	P	14,841,578	P -	P -	P -	P 10,094,326	P 92,409,443	P 117,345,347

		December 31, 2021						
		Within 1 Year	1 to 2 Years	2 to 3 Years	3 to 5 Years	More than 5 Years	No fixed maturity date	Total
Payables*	P	6,630,687	P -	P -	P -	P -	P 92,409,443	P 99,040,130
Security deposit		-	-	-	-	10,094,326	-	10,094,326
	P	6,630,687	P -	P -	P -	P 10,094,326	P 92,409,443	P 109,134,456

* Amounts are exclusive of nonfinancial liabilities amounting to P3,052,296 and P1,861,352 as at December 31, 2022 and 2021, respectively.

Credit Risk

Credit risk is the risk that a counterparty may fail to discharge an obligation to the Trust Fund. The Trust Fund is exposed to this risk for various financial instruments arising from services to customers and certificate holders; placing deposits with banks; and, investing in bonds and treasury bills that are carried at FVOCI.

The Trust Fund continuously monitors defaults of customers and other counterparties, identified either individually or by group, and incorporate this information into its credit risk controls. The Trust Fund's policy is to deal only with creditworthy counterparties. In addition, for a significant proportion of sales, advance payments are received to mitigate credit risk.

With respect to credit risk arising from other financial assets of the Trust Funds, which comprise cash and cash equivalents and receivables, the Trust Fund's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments. The Trust Fund limits its exposure to credit risks by depositing its cash only with financial institutions duly evaluated and approved by the Management. The Trust Fund's exposure on rental deposit is minimal since no default in payments were made by the counterparties.

The table below shows the maximum exposure to credit risk for the components of the statements of financial position. The maximum exposure is shown at gross amount, without taking into account collateral and other credit enhancement.

	2022		2021	
Cash and cash equivalents	P	95,162,559	P	173,912,011
Receivables		49,356,313		36,756,016
	P	144,518,872	P	210,668,027

The credit quality of the financial assets is managed by the Trust Fund using the internal credit quality ratings. High grade accounts consist of receivables from debtors with good financial condition and with relatively low defaults. Financial assets having risks of default but are still

collectible are considered standard grade accounts. Receivables that are still collectible but require persistent effort from the Trust Fund to collect are considered substandard grade accounts.

None of the Trust Fund's financial assets are secured by collateral or other credit enhancements, except for cash and cash equivalents as described below.

Cash

The credit risk for cash and cash equivalents is considered negligible, since the counterparties are reputable banks with high quality external credit ratings. Included in the cash and cash equivalents are cash in banks and short-term placements which are insured by the Philippine Deposit Insurance Corporation up to a maximum coverage of P500,000 for every depositor per banking institution.

Receivables

The Trust Fund applies the PFRS 9 simplified approach in measuring ECL which uses a lifetime expected loss allowance for all receivables.

To measure the expected credit losses, receivables have been grouped based on shared credit risk characteristics and the days past due (age buckets). The other receivables relate to receivables from both third and related parties other than trade receivables and have substantially the same risk characteristics as the receivables. The Trust Fund has therefore concluded that it is not necessary to provide allowance for expected credit loss due to the nature of its receivables.

Capital Management

The primary objective of the Trust Fund's capital management is to ensure that it maintains strong and healthy financial position to support its current business operations and drive its expansion and growth in the future.

The Trust Fund considers its net equity totaling P574,826,810 and P565,596,406 as at December 31, 2022 and 2021, respectively as its capital employed. The Trust Fund maintains its current capital structure, and will make adjustments, if necessary, in order to generate a reasonable level of returns over the long term. No changes were made in the objectives, policies or processes during the years ended December 31, 2022 and 2021.

Fair Value Measurement

The following table presents the carrying amounts and fair values of the Trust Fund's assets and liabilities measured at fair value and for which fair values are disclosed, and the corresponding fair value hierarchy:

	Note	Carrying Amount	2022		
			Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets for which fair values are disclosed:					
Cash and cash equivalents	6	P 95,162,559		P 95,162,559	
Receivables	7	49,356,313		49,356,313	
		P 144,518,872		P 144,518,872	

	Note	2022		
		Carrying Amount	Fair Value	
			Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)
Liabilities for which fair values are disclosed:				
Payables*	13	₱107,251,021	107,251,021	
Security deposit	20	10,094,326	10,094,326	
		₱117,345,347	₱117,345,347	
	Note	2021		
		Carrying Amount	Fair Value	
			Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)
Assets for which fair values are disclosed:				
Cash and cash equivalents	6	₱173,912,011	₱173,912,011	
Receivables	7	36,756,016	36,756,016	
		₱210,668,027	₱210,668,027	
Liabilities for which fair values are disclosed:				
Payables*	13	₱99,040,130	₱99,040,130	
Security deposit	20	10,094,326	10,094,326	
		₱109,134,456	₱109,134,456	

The carrying amounts of cash and cash equivalents, receivables, payables, and security deposit approximate their fair values due to the short-term nature of these transactions.

NOTE 22 - RECONCILIATION ARISING FROM FINANCING ACTIVITIES

Presented below is the reconciliation of the Trust Fund's liabilities arising from financing activities, which includes both cash and non-cash changes.

	2022	2021
Balance as of January 1	₱ 826,639,014	₱ 823,303,042
Cash flow from Financing Activities:		
Additional contributions	3,018,322	3,335,972
Balance, December 31	₱ 829,657,336	₱ 826,639,014

NOTE 23 - IMPACT OF COVID 19 PANDEMIC

The economy is slowly on its way to recovery with the lifting of worldwide restrictions, government programs on continued immunization, and relaxation of health and safety protocols. Now that economic activities have started to normalize, the Trust Fund is optimistic to see positive impact on its financial condition and results of operations.

NOTE 24 - SUPPLEMENTARY INFORMATION REQUIRED BY THE BUREAU OF INTERNAL REVENUE

Presented below and in the succeeding pages is the supplementary information which is required by the Bureau of Internal Revenue (BIR) under Revenue Regulation (RR) No. 15-2010 and 34-2020 to disclosed as part of the notes to financial statements. This supplementary information is not a required disclosure under PFRS.

The information on taxes, duties and license fees paid or accrued during the taxable year required under RR No. 15-2010 and 34-2020 are presented in the succeeding page:

(a) Value-added Tax

The Trust Fund is registered under the VAT law. Detailed classification of input and output VAT are as follows:

	<u>Amount</u>
Total output VAT	₱ 6,362,481
Total input VAT	<u>5,408,960</u>

(b) Withholding Taxes

Expanded withholding taxes paid and accrued during the year amounts to ₱2,993,612.

(c) Tax Assessments and Cases

The Trust Fund did not receive any Letter of Authority or Tax Verification Notice from the Bureau of Internal Revenue (BIR) during the period. The Trust Fund has no pending tax cases as of reporting dates.

(d) Related party Transaction

The Trust Fund is not covered under Section 2 of the Revenue Regulation 34-2020 requirements and procedures for related party transaction, including filing of BIR Form 1709, Information Return on its Transactions with Related Party.
